

I don't want to get unwanted phone calls, I just got on the list and it has been nice because I have a toddler at home and the phone would ring all the time and wake him up. It is very hard to get a toddler who doesn't want to take a nap in the first place to go back to sleep. If they want to add more unwanted calls than maybe they should come to my house and deal with my son when he doesn't get a full nap. I even get calls at eleven pm that is uncalled for!
